

Home equity lending with Encompass

Serve and retain customers with scalable solutions

Products and Services

Encompass® by ICE Mortgage Technology® has a long history of helping lenders quickly adapt to changes in the housing market. Encompass has the tools your business needs to streamline your workflow and scale with market demands, all within a unified, single system of record.

Home equity lending made easy

Encompass delivers the industry's only true, digital end-to-end home equity lending experience.

Integrated point-of-sale: Enable borrowers to check rates, compare home equity lending products, and complete an application from anywhere

Comprehensive workflow: Manage all your borrowers' loans from a unified, single system of record

Flexible and configurable: Quickly originate and process home equity loans, enabling your business to scale with market demands

API-enabled: Seamlessly connect your lending experience using the ICE extensive suite of open APIs

Fully compliant: Unlike separate consumer lending platforms, Encompass provides HMDA reporting and dynamically generated disclosure documents

Benefits

- Serve customer needs using a scalable, streamlined and unified lending experience
- Manage all loan types from your single system of record
- Easily configurable to scale with market demands
- Fully compliant HMDA reporting
