Mortgage Automation

Capture, Perfect, Accelerate

Products and Services

Lic

Creates consistent, uniform lending processes that improve quality and drive efficiency across the organization.

ICE Data & Document Automation[™] integrates with the ICE Mortgage Analyzers to enable lenders, investors and servicers to automate manual workflows, increase productivity, reduce risk and boost return on investment (ROI).

Use automation-ready data to power your business

Capture and standardize data into an authoritative "source of truth" record for each loan file, store it in a secure, cloud-based data repository, and enable automation with complete, accurate information. Use automationready data to power your own business applications in Encompass® by ICE Mortgage Technology® to eliminate manual work and enhance decision-making from application through post-closing and servicing. Automation-ready data can be seamlessly integrated either way.

Our approach to automation enables you to deploy your teams where they are most effective – engaging in decision-making for exception-based workflows, rather than performing error-prone manual processes and "stare and compare" validations.

The Automation difference

Data & Document Automation, has helped boost efficiency for mortgage companies for 15+ years. ICE has further enhanced efficiency with Credit and Income Analyzers that recognize documents and extract data to power automation.

Documents and data are also synchronized across Encompass, and the ICE Mortgage Technology Partner Network. In addition, robust APIs and integrations with third-party solutions and loan origination systems further extend Data & Document Automation capabilities.

Benefits include:

- Reduce compliance risk
- Enhance data integrity with complete, accurate data
- Scale up or down without adding people or replacing infrastructure
- Identify required documentation up front and offer a better user experience
- Automated income validation for self-employment support

	Income Analyzer		TOTAL ADJUSTED MONTHLY INCOME	\$13,583.77
	SUMMARY BORROWER	1 BORROWER 2		
	HISTORICAL AVERAGES MONTHS WORKED	10.87 MONTHS	22.87 MONTHS	34.87 MONTHS

	ANNUAL TRENDING TOTAL MONTHS WORKED	10.87 MONTHS	12 MONTHS	12 MONTHS
	AVG BASE PAY INCOME	\$7793.56	\$7512.32	\$6913.17

Solutions for every channel

Lenders – Improve consistency and quality to reduce loan repurchase risk

Investors – Purchase higher quality loans faster with more regularity

Servicers – Onboard loans consistently and quickly to adhere to compliance standards

Proven results for leading lenders, investors, and servicers

Increased productivity

How it works

- **1. Capture**: Simplifies and standardizes the collection of loan information
- **2. Perfect**: Turns disparate documents into organized, consumable, actionable data
- **3. Accelerate**: Transforms operations to an exceptionbased workflow

Why partner with ICE Mortgage Technology?

By harnessing the power of Mortgage Automation, you can automate manual workflows, increase productivity, and reduce risk across your organization. See the compelling ROI for yourself and discover how we can partner to help you start seeing benefits from day one of deployment.
