

Order services from the next generation of partner integrations

Access partner integrations faster and with fewer clicks than ever before. Benefit from a streamlined user experience and automation.

Enhanced integrations built on our latest Encompass Partner Connect™ API platform will allow you to streamline your workflow, and increase quality and efficiency in your loan origination process.

Discover the possibilities of partners' enhanced integrations:

Automation

- Automated Service Ordering (ASO) at designated milestones and customizable business rules
- Ability to allow a user to place an order with a single click of a button

Service ordering via APIs

- Leverage partner services through Encompass Developer Connect™ to augment custom workflows
- Ability to embed services in custom screens and processes

User experience

- Cross-compatibility with both Smart Client and Encompass®
- Enhanced service ordering configuration management
- Modern, easy-to-use UI optimized for desktop and web
- Automatically import data and documents into the loan file without user interaction (asynchronously)
- Configurable document mapping

Automation

Streamlined tasks, fewer clicks

Service ordering via APIs

Access through Encompass Developer Connect, customization

User experience

Easy-to-use, automated data

Please contact your ICE Mortgage Technology representative to learn more.

Partner integrations built on the latest API technology facilitate the transition to the web and provide a seamless experience for our lenders.
